There's no such thing as a Mission Impossible to Cat Stancik, who is known for her tough love approach that gets clients into focused action, to get out of overwhelm and create big results with significantly less effort! She works with high achieving entrepreneurs who want to stop focusing on the glorified 6 and 7 figure marks, and finally enjoy a profitable, balanced business. Cat does this by leveraging her proprietary system, to simplify, strategize and systematize to an entirely new level.

Cat is the founder of Action Incubator™, a sought-after speaker, and Bestselling Author of *7 Principles for a More Productive and Fulfilling Life*. As a self-proclaimed "Education Junkie" who genuinely cares about getting her clients bigger results, getting an MBA wasn't enough. Cat is also certified by The Coaches Training Institute, Project Management Institute, and Leadership Circle Profile 360 Assessment. She is also a long-time member of the International Coaching Federation, where she holds her ACC. She lives in Maryland with her two daughters and her adoring husband, who showers her with chocolate and massages (if he knows what's good for him).
