There's no such thing as a Mission Impossible to Cat Stancik, who is known for her tough love approach that gets clients into focused action, to get out of overwhelm and create big results with significantly less effort! She works with high achieving entrepreneurs who want to stop focusing on the glorified 6 and 7 figure marks, and finally enjoy a profitable, balanced business. Cat does this by leveraging her proprietary system, to simplify, strategize and systematize to an entirely new level.

Cat is the founder of The Action Incubator™, a sought-after speaker, and Bestselling Author of 7 Principles for a More Productive and Fulfilling Life. As a self-proclaimed "Education Junkie", getting an MBA wasn't enough for Cat Stancik. She's also certified by The Coaches Training Institute and the Project Management Institute, is certified in the Leadership Circle Profile 360 Assessment, and is a long-time member of the International Coaching Federation. She lives in Maryland with her two daughters and her adoring husband, who showers her with chocolate and massages (if he knows what's good for him).
